

## Special Feature

**“Ashwini Kumar Rath:  
Pioneering Innovation at  
the Intersection of  
Technology, Sustainability,  
and Rural Wisdom”**

Ashwini Kumar Rath, an entrepreneur, author, and DevSecOps expert, stands at the helm of Batoi, where he drives the company’s strategic direction and product innovation. As Founder and CEO, Rath is not only shaping the future of technology but also making significant contributions to industries and academia worldwide. His work spans diverse areas such as quantum computing, artificial intelligence, sustainable DevSecOps practices, and mathematical sciences.

A visionary leader, Rath is also a director at multiple companies across India and abroad, reflecting his global footprint in the tech industry. His influence extends beyond the corporate world, as he holds the prestigious position of Regional Chairman (East) of the Electronics and Computer Software Export Promotion Council of India (ESC). Rath is also an active member of numerous business and academic organizations, where he contributes to policy-making and thought leadership.

Despite his professional achievements, Rath remains deeply connected to his roots. He treasures the simple joys of rural life in India, where he finds inspiration in nature’s beauty. Alongside his family—his parents, spouse, and son—he is a passionate advocate for sustainable living and believes in balancing technological advancement with environmental stewardship.

Through his work and personal philosophy, Ashwini Kumar Rath exemplifies the blend of innovation, leadership, and reverence for the natural world that is shaping the future of technology and business.
